C&M has brake solutions for every vehicle!

GEOSPEC COATED BRAKE ROTORS

- ◆ Processed and shipped dry, ready to install– no additional preparation, saves time
- ◆ Engineered with premium G3000/G11H18 iron castings for strength and durability
- ◆ Original Equipment (OE) vane configuration ensures maximum heat distribution
- ◆ 100% precision mill-balanced for smoother stopping and zero vibration at any speed
- ◆ Non-directional finish to promote faster break-in and smoother stops
- ◆ Designed to meet the same form, fit, and function as OEM brake rotors

POWERSTOP® ROTORS

Evolution Geomet Coated Rotors

- ◆ Genuine Geomet coating
- ◆ Excellent anticorrosion protection
- ◆ Looks great for open aluminum alloy wheels
- ◆ Competitively priced

Evolution Performance Drilled & Slotted Rotors

- ◆ Beveled & precision drill holes keep rotor temperatures down
- ◆ Rounded slots keep clear contact between pad & rotor
- ◆ Silver Zinc plated helps shield & resist rust
- ◆ Top #s in stock Trenton
- ◆ Special order two day shipping price \$20

Quality Partnership

Dynamic Friction Company

5000 Series Advanced Premium Brake Pads

- ◆ 17 different positive mold formulations
- ◆ Low dusting, premium shims & scorched
- ◆ Most exclusive brake pad in the aftermarket
- ◆ Designed for all Euro, Asian, Exotic, Domestic & Light Truck Applications
- ◆ New applications in-stock and line updated all locations

3000 Premium Ceramic and Semi-Metallic Formulation Brake Pads

- ◆ Premium Rubber-Steel-Rubber Shims improve NVH (Noise/Vibration/Harshness)
- ◆ Positive Mold Design = Consistent Friction Density
- ◆ Scorched & Post Cured Removes Glues & Resins
- ◆ Extremely Competitive = More Profits (One Price)

MOFO (Maximum Operating Friction for Off-Roading) Ultimate Duty Performance Pads

For lifted trucks, trucks with large tires or off-road vehicles

- ◆ High performance braking
- ◆ High coefficient of friction all temperatures
- ◆ Better brake balance and feel

DFC hardware is sold separately– upgrade to DFC quality hardware as needed!

- ◆ Specifically designed for each application
- ◆ Rubber coated abutment clips
- ◆ Reduces noise, vibration & premature wear
- ◆ Performs like Original Equipment

Semi-Loaded Calipers by NuGeon®

Coated Caliper Program

- OEM color matched e-coated calipers
- Fully coated Techshield 360 E-coating rust prevention process

Installation Ready

- Include lubricated guide bolts, new bleeder screws & brake hardware
- Include banjo bolts, copper crush washers, P-brake brackets, levers & springs

Highest Quality at a Great Value

- Pressure testing– every caliper
- Bracket slide testing– optimal performance
- OE matched pistons ensures even heat distribution
